## **REMEMBER AND REFLECT WITH OTHER STUDENTS**

---

**Human beings are capable of realizing enormous projects that have a positive and a negative impact on both humanity and the planet. Auschwitz was a sophisticated and extremely efficient killing machine, where people were purposefully and systematically stripped of their humanity on an industrial scale. This great black page in the history of humanity is what today still, only some 80 years later, demands our careful reflection.**

**We must not forget the Holocaust. We must remember those who lost their lives, so that we may perhaps prevent it from happening again. This year, we will discuss the subject of refugees and war in depth. We also invite you to write a reflection on this visit and to share it with your fellow students.**
