

STUDENTEN
PASTORAAT 010

Team Training for Student Boards

Studentenpastoraat010 offers tailor-made trainings to student boards.

Common topics are:

- **Leading an Association as Community**
- **Managing Conflicts and Frictions**
- **Refueling Motivation**
- **Dealing with a Crisis Situation**

#1: Leading an Association as Community requires specific leadership skills. How do you combine a business mindset and a personal approach?

#2: Managing Conflicts and Frictions: working under pressure puts a strain on relations. We train you to deal with such conflicts.

#3: Refueling Motivation: a board year can be very demanding. We train you to stay motivated as a team.

#4: Dealing with Crisis Situations: during a board year, difficult situations can suddenly arise, such as the death of a student or an abuse situation in the association. In that case, we can offer expertise and guidance through the process.

Studentenpastoraat010 activities are low-cost and range from study visits, workshops and retreats. For more information about what we can mean for your association, please send an email to: team@studentenpastoraat010.nl
